A Very Simple Introduction to Teaching English ISBN 978 0 9556358 4 7

This is a short easy to read introduction for very new teachers or for people who are wondering whether to become English teachers. It does not always offer answers but assumes the reader will enjoy thinking for themselves about how they would approach some of the questions raised. If it whets the appetite to understand more about language learning and teaching, there is a final brief section with suggestions for further reading.

Language Post is a small business set up in 2003 by Clarice Brierley to create English language resources for adult learners. The main focus has been on ESOL learners. However the repeated phonic patterns, limited vocabulary and simple sentence structures are popular with family learning and basic literacy groups in a range of settings.

Language Post develops, publishes and distributes learning resources.
